

## # Meeting Agenda

**Group:** hubba (15)

**Date:** 2018-10-15

**Chair:** Johannes

**Participants:** Alexander, Camilla, Jian, Li, Johannes, Nils-Martin

### ## Objectives (5 min)

- Deadline: RAD & SDD on sunday.
- Changing themes. Recreate activities to change themes.
- Open list items, not yet working.

### ## Reports (15 min) from previous meeting

- **Li:** Refactored classes into packages. Started a branch for friends functionality with small changes so far.
- **Nils-Martin:** Fixed observer pattern removed from groups. Checked groups, fixed dependencies mellan user, groups and habits.
- **Alexander:** Moved enums into habit.
- **Jian:** Has worked on opening list items, and so that the same one opened but several can be added. Not working right now, but working on fixing it.
- **Camilla:** Has implemented red squares as error clarification. Added comments in javadoc. Checked RAD and SDD. Refactored classes into packages.
- **Johannes:** Wrote in RAD about interfaces, it was wrong since it is supposed to be about the finished app and not iterations. Themes: has a plan on how to get it to work, hopefully just need to figure out details. Tried bug fixing saving issue.

### ## Discussion items (35 min)

- **Deadline:** RAD and SDD. **Li** can continue on System Architecture (SDD). **Camilla** will add sequence diagrams (SDD). **Johannes** will continue on user interface (SDD). **Nils-Martin** will write on persistent data management (SDD). **Alex** will write on definitions(RAD & SDD) and help with system architecture (SDD). **Jian** will write on class responsibilities (RAD). Prioritize these until wednesday.
- Second input on how to fix themes.
- On a phone, the app crashes as soon as the loadData function is used a second time.

### ## Outcomes and assignments (5 min)

- **Li:** can continue on System Architecture (SDD). Friends and add/remove them. Also check lists in menu for group, habits and friends.

- **Camilla:** will add sequence diagrams (SDD). Make comments in calendar. Fix so that when you open up calendar it shows the habit for the current day without going to another and back. ((Fix so only the habits that is on that date to be shown on main page are shown, now all habits are shown) - waiting så open list is finish).

- **Johannes:** will continue on user interface (SDD). Themes, if adding a method in all interface.

- **Nils-Martin:** will write on persistent data management (SDD). Finish group and talk with Li about Friends so they become compatible with each other.

- **Jian:** will write on class responsibilities (RAD). Fix open list. Check and uncheck a habit also the page for habit details.

- **Alexander:** will write on definitions(RAD & SDD) and help with system architecture (SDD). Implement password changes and edit information in profile. Also fix profile picture, logout function and help.

**All:** update designmodel.

## **## Wrap up**

- **Next meeting:** Thursday 2018-10-18 12:00.
