

Meeting Agenda

Group: Hubba

Date: 2018-10-25

Chair: Johannes

Participants: Li, Nils-Martin, Alexander, Camilla, Jian, Johannes

Objectives (5 min)

- We have a lot of interfaces that we don't use. Methods need to be changed to use interfaces and not classes directly.
- Check through all the code for right accessibility
- Saving is not working still. Trying a new way.
- Clear unused methods and imports.
- Set deadline for code so that we can focus on the documents?
- Stan

Reports (15 min) from previous meeting

- **Group:** Peer review

- **Li:** Finished menu, making clickable stuff with Camilla. Fixed RAD and SDD grammar. The menu functions that are dependent on Save are in the code but not used since there is no Save.

- **Camilla:** Finished menu, making clickable stuff with Li. Changed notifications so that it doesn't send random notifications. Worked on making habits show up on the right day with Jian. Reset habit has not succeeded.

- **Johannes:** Streaks are visible on the front page when they are supposed to. Made implementations of iHabit where there was just Habit. Create group theme set.

- **Nils-Martin:** Mostly fixed details like variable names, and comments.

- **Alexander:** Looked a bit on accessibility. Worked a lot on saving things, not yet finished.

- **Jian:** Worked on making habits show up on the right day with Camilla and tried to make it reset at 00:00 but has not managed to get it to work yet.

Discussion items (35 min)

- Interfaces

- use interfaces.

- Deadline: saturday 12.00 the code should be done

- Stan: some sources say we're not allowed to autogenerate stan. We'll ask Joel at the meeting.

- Check list (for looking through the code)

- Delete grey code (unused)
- Use interfaces in methods
- Check accessibility
- Comment / delete unnecessary comments
- Write tests
- Use new lines between methods to make it easier to read
- Make smaller method, (call method to method)

Outcomes and assignments (5 min)

Everyone: Go through code according to checklist above. Write on RAD & SDD.

- **Li:** Last on menu with solutions depending on if save works or not.

- **Johannes:**

- **Camilla:** Look if notification disappear. And check if Calendar does its job. Look little on reset

- **Jian:** Try to implement reset habit.

- **Alexander:** Continue on save.

- **Nils-Martin:**

Wrap up

Next meetup together Saturday 13:00
