

Meeting Agenda

Group: Hubba

Date: 2018-10-08

Chair: Johannes

Participants: Li, Nils-Martin, Camilla, Jian, Johannes, Alexander.

Objectives (5 min)

- Out Commented code in main not working. The one to open up a habit.
- Decide who draws and writes next mentor meeting.
- Often a system to be 5 minutes late to meetings. When we are actually supposed to start 09:00. Would save time if everyone was on time.
- We should use the trello more so it stays updated.
- Gradlew still not working
- Travis not working
- Need to work on pliancy

- **Resolve any issues preventing the team to continue.**
- **Short clear descriptions.**

Reports (15 min) from previous meeting

- **Jian:** Worked on the page that shows up when a habit is pressed. Frequency, reminders are not done so they have arbitrary text. Tried to make on Click work on frontpage, not yet completely successful.

- **Alexander:** Solved merge conflicts with Johannes, haven't had time to look at RAD yet. Tried to make gitinspector work unsuccessfully. Worked on making Gradlew work, not yet successful.

- **Li:** Worked on menu and is almost done. It is clickable but functionality is not yet implemented. Fixed bug in main and worked on both RAD and SDD. Help and functionality left to do. Fixed past documents, chair is now a person.

- **Johannes:** Fixed merge conflicts with Alexander. Refactored some code to be more effective. Commented mainactivity, got some smaller methods left but those are not in their final form yet. Tried making tests in main activity, is not working yet.

- **Nils-Martin:** Fixed model to not need server. Worked on saving stuff, almost done.

- **Camilla:** Implemented functionality for frequency, to check for checked checkboxes. Having problems with a list.

- **Each group member reports outcome of assigned issues, see also 'outcomes and assignments'.**

Discussion items (35 min)

- Google for clickable list item objects in main.
- Jian writes and Johannes next handledarmöte. Li and Alexander takes next meeting.
- People will stop being late.
- When should project be done? Maybe ask Alex.
- Talked to other group about travis. Received image with code. Will continue working on this.
- Trello board needs more work, tasks are not small enough.
- google for gradle. Else talk to handledare.
- Pliancy will be added later on, not the main priority in this project.

- **Discuss the identified issues, and possibly new or more general issues (very short notes and/or keywords).**

Outcomes and assignments (5 min)

- **Alexander, Jian:** Click function in front page. Alexander continues with gradle. Jian will work on Frequency, work on documents if there's time.
- **Jian, Johannes:** Implement themes.
- **Johannes:** Add states Night and Done in habit and fix correlating code on main page. Mail Alex about project deadlines.
- **Nils-Martin:** continue with saving stuff
- **Li:** Continue with menu functionality
- **Camilla:** continue with showing habits in calendar with the right frequency and right weekdays.
- **Outcomes from discussion items. Write down what's decided and why it was decided. Sync with other documentation (add terms to wordbook).**
- **(re)Assign to each group member which issues to solve.**
