Group:Hubba
Date:2018-09-13
Chair: IKEA tror jag
Participants: Johannes, Li, Jian, Nils-Martin.

Objectives (5 min)

- Svårt att förstå Gradle (när den ej är inbyggd)

Reports (15 min) from previous meeting

- Group:
        - Epics.
        - User stories.
        - Tasks.
        - Test workshop.
- Nils-Martin
        - Etablerat git workflow
- Li
        - Tried to understand gradle without success.
-Johannes
        -Collected information from Lecture Powerpoints and created a project workflow
        document and an user stories and task documents where all relevant information is
        kept.

-Jian

        -

"Each group member reports outcome of assigned issues, see also 'outcomes and
  assignments'"

Discussion items (35 min)

-Problem understanding gradle
-Schedule, how to find common time to work on project.
-What do do in the upcoming days
-Create a mockup

"Discuss the identified issues, and possibly new or more general issues (very
  short notes and/or keywords)"

Outcomes and assignments (5 min)

-Problem understanding gradle:

      Talk with advisor and continue to look up youtube videos to get an better understanding

-Schedule

      We found that tuesday,wednesday 15→ later and friday early→12:00 was free for everyone so there we could work on it.

      We also need to balance our other courses.

-What to do in the upcoming days

      -Everyone:

            *Read and understand our new Git workflow so we're ready when the coding starts.

      -Jian/Pon: Create a mockup of the application.

      -Li/Johannes: Start looking at an domain model

- Outcomes from discussion items. Write down what's decided and why it was
  decided. Sync with other documentation (add terms to wordbook).
- (re)Assign to each group member which issues to solve.

Wrap up

Next meeting is to be held according to new schedule at 09:00 monday.
